Agenda for Eleventh Annual Meeting of The Multi-Societal Database Committee for Pediatric and Congenital Heart Disease:

Improving the quality of congenital cardiology healthcare through the by harmonizing international databases

| 08:30 | Welcome and Introduction | Rodney Franklin (London) |
| 08:35-08:50 | Summary of Previous Conferences | Robert Vincent (Atlanta) |

Chairs for morning sessions: Rodney Franklin, Robert Vincent

Quality Improvement arising from interventional cardiology databases

08.50	Quality Improvement metrics in the IMPACT database and Electrophysiology lab	Robert Vincent
09.10	Quality Improvement metrics in the European Cath Lab	Ina Michel-Behnke (Vienna) / John Thomson (UK)
09.25	Quality Improvement metrics in the UK National CHD Audit database – cath lab	Rob Martin (Bristol)
09.40-10.00	Discussion: Harmonising European and North American interventional Databases	All speakers, Rodney Franklin

Quality Improvement arising from critical care databases

| 10.00 | Quality Improvement initiatives in North American Critical Care Databases | Michael Gaies (Michigan) |
| 10.15 – 10.30 | Critical Care Databases – the Current State of the Art. | Randall Wetzel (Los Angeles) |

Break

10.50	Child Health Quality Assurance, Improvement & Patient Safety (CHIPS) Collaborative	Vijay Anand (Alberta)
11.05	Quality Improvement and update on European Critical Care Databases	Duncan Macrae (London)
11.20-11.35	Discussion: Harmonising North American & European Critical Care Databases	All speakers from session

Quality Improvement arising from cardiology databases

11.35	Quality Improvement in the echo lab: the Appropriate Use Criteria (AUC) App	Leo Lopez (Miami)
11.45	ACC Noninvasive Imaging Quality Metrics Working Group	Leo Lopez
11.55	Quality improvement: Improved communication and outcomes through images; establishment of the International Virtual Congenital Cardiac Encyclopedia	Jim St Louis (Minnesota)
12.10	Quality Improvement initiatives in fetal echo: crossing the materno-neonatal barrier	Gurleen Sharland (London)
12.25-12.40	Discussion	All speakers

Lunch

Chairs: Bohdan Maruszewski, Jeff Jacobs

Quality Improvement arising from surgical databases

13.20	Quality Improvement arising from the EACTS database	Bohdan Maruszewski (Warsaw)
13.30	Quality Improvement arising from the STS database: public reporting	Jeff Jacobs (Hopkins)
13.45	Quality Improvement arising from the UK National CHD Audit database - surgery	Rodney Franklin
13.55	Quality improvement: which post-surgical morbidities should we measure?	Christina Pagel (London)
14.10-14.25	Discussion: Can we harmonise EACTS and STS databases	Jeff Jacobs, Bohdan Maruszewski
14.25	An integrated data network for congenital heart disease	Sara Pasquali (Michigan)
14.40-14.55	Discussion: Linking UK National CHD database and EACTS database	Rodney Franklin, Bohdan Maruszewski
14.55	Transparency	Jeff Jacobs
15.10	Longitudinal follow-up	Gil Wernovsky (Miami)
15.25	Open Discussion: where do we go from here?	Jeff Jacobs (moderator)
15.40	Close of meeting
